Subject and Author Index
PLASTICS and MOLDED PRODUCTS
Volume IV, 1928
Part One—Subject Index

Abrasive wheels, phenolic resinoid in, 346
Acaroid resin, panels contg., 386
—, wood substitute made with, 142
Acetanilide, properties of, 612
Acetylene plastics, 322
Acetyluren—diacetin condensate, 509
Acids, fatty, plastics from acetylene and, 322
Acrolein, urea condensed with, 194
Adronal acetate, 489
Advertising novelties, trade-mark rights extended to, 584
Aep (ethyl p-toluene sulfonate), 385
A. E. P., see ethyl paratoluensulfonate,
Airplane windows, pyroxylin, 410
Akalit, 21
Akalith, water absorption of, 12
Aldehyde ammonia, shellac molded with, 686
Aldur, ultra-violet light permeability of, 588
Aluminum casting, resinoid coated, 569
Ambra, specific gravity of, 263
Ambrasit, elasticity of, 372
Amines, oil rancidity in plastics prevented by, 688
Am noplastics, 510
—, cloudy, improving, 618
—, fabrics beaded with, 510
—, hardening with acids, 386
—, mfr. of, 322, 446, 509, 618, 688
—, progress in, 194
Am noplastic scrap, recovery of, 634
Ammonia, as condensing agent for resinoids, 386
Amphibole, molded product from, 568
Amyl acetate, see also pentacetate
Amyl adipate, properties of, 612
Amyl acetate, 489
Amyl alcohol, see also pentasol
Amyl benzoate, properties of, 612
Amyl phthalate, properties of, 612
Argentina, casein production, 637, 683
Argolit, 21
Aniline resins, mfr. of, 447, 508
Anol, (cyclohexanol), 385
Anon (e), see cyclohexanone
Antarctic expeditions, molded products carried by, 460
Asphalt, resinoid panels contg., 386
Associations, value of, 104
Austria, plastic trade of, 378

Bakelite, elasticity of, 372
—, human skull made of, 696
—,Italy, 71
—, in surgery, 696
—, use of, illustrations, 700
Bakelite Corp., research at, 81
Bakelite decision, appeal from, 553
Bakelite patents, still in force, 207
Bandalasta, 233
Battery nut, molded, 516
Battery boxes, molding, 159
Battery terminals, molded, 517
Beatl ware, 233
Beetle molding powder, 200
Beetle ware, 233
Benzene, halogenated, phenol from, 142
Benzene sulfonamide, properties of, 612
Benzoic acid, casein plasticized with, 444
Benzoic acid, glycerol condensed with, 564
Benzol-benzoic acid, glycerol condensed with, 564
Benzyl adipate, properties of, 612
Benzyl benzoate, properties of, 612
Benzyl cellulose, composition contg., 688
—, mfr. of, 386
Benzyl ether, see also erganol
Benzyl phthalate, properties of, 612
Boats, molding, 162
Blood, plastics from, 386, 446
Blow-torches, bakelite valves on, 41
Bone, early combs of, 369
Bottle top, phenol resinoid, 396
Boudoir accessories, new vogue in, 578
British industries fair, 410, 647
—, new molding powder at, 200
Bromo-aniline, cellulose ester solvent, 147
Bromobenzene, Phenol from, 142
Bromocresol blue, indicator in casein manufacture, 142
Bromoparatoluidine, cellulose ester solvent, 147
Butanel, 490
Butanol estate, 490
Buttons, casein, 529, 590
—, German trade in, 591
Butyl acetate, 490
—, properties of, 612
Butyl adipate, properties of, 612
Butyl aldehyde phenol resin, manufacture of, 566
Butyl benzoate, properties of, 612
Butylethyl carbonate, 490
Iso-Butyl phthalate, properties of, 612
Buyers' knowledge of molded products required, 335
Burglar alarm base, molded, 644

Camera, molded, 158
Camphol, 490
Camphor, manufacture in Germany, 258
—, synthetic, in Germany, 193
—, —, in Japan, 577
Camphor recovery, 626
Candy box, molded, 99
Canoes, molding, 163
Carbon, activated, catalyst in urea-formaldehyde condensation, 688
Car coupler, molded parts of, 344
Cards, pyroxylin tile as, 277
Casein, Argentine production, 637, 683
—, buttons molded of, 590
—, extensive use of, 384
—, furfural combined with, 80
—, grain, mfr. of, 142
—, indurating, 510
—, molding products of, 460
—, plastic mfr. of, 446
—, plasticizers for, 444
—, pyroxylin combined with, 322
—, sound record of, 444
—, water content, 11
Casein buttons, 529
Casein solids, 40
—, American production, 524
—, in Austria, 378
—, cooking utensil handles of, 402
—, furfural in, 634
—, Goldsmith's pioneer work in, 444, 498
—, hygroscopicity of, 11
—, manufacture of, 132
—, molding, powder containing, 323
—, thermoplastic, 333
Cash carrier, molded, 524
Cassava starch, sulfur plastic contg., 388
Catalin, description of, 397
Cellesta, (T-M), 380
Celluloid, coated with leather, 688
—, invention of, 697
—, merger, French, 468
—, Japanese companies making, 577
—, see also pyroxylin plastics
Celluloid Co., forerunner of Celluloid Corp., 671
Celluloid Corpn., history of, 669
—, new president, 172
Celluloid Industry, Japan, 24
Celluloid Mfg. Co., forerunner of Celluloid Co., 670
Celluloid ornithopter, 323
Celluloid trade, in Germany, 23
Cellulose, colloiding mechanically, 432
—, esterifying, formic acid for, 386
—, hydrated, esterifying, 688
—, plastification of, 431
Cellulose acetate, 688
—, apparatus for making, 508
—, bromo-aniline as solvent of, 147
—, definite viscosity, preparing, 386
—, films, mfr. of, 130
—, improved, 626
—, mfr. of, 129, 323, 386, 446, 626
—, modifying properties of, 322
—, molded products of, 636, 637
—, molding in England, 644
—, molding powder contg., 311, 508, 688
—, molding possibilities of, 156
—, new British firm to mold, 644
—, perchlorates as catalysts, 24
—, re-acetylating, 688
—, Trolite, 85
—, uses of, 698
Cellulose acetate plastics, moire effects on, 211
—, physical properties of, 449, 498
Cellulose acetate sheets, covering articles with, 386
Cellulose benzoate, mfr. of, 386
Cellulose compounds, moisture retention by, 447
—, solubility of, 323
Cellulose carboxylates, 508
Cellulose derivatives, molding, 147
Cellulose esters, composition containing, 323
—, light-sensitizing, 202
—, mfr. of, 446, 568, 626, 627
—, mfr. from hydrated cellulose, 688
—, mixed, preparation of, 688
—, photographic medium contg., 202
—, progress in, 129
—, proteins and, plastics contg., 322
—, review of solvents for, 322
—, rubber in, 508
Cellulose ethers, increasing solubility of, 500
—, mfr. of, 508, 509
—, plastics from, 262
Cellulose ether compositions, mfr. of, 688
Cellulose fatty acid esters, 322
Cellulose formate, mfr. of, 508
Cellulose nitrate, decomposition of, 142
—, increasing solubility, 626
—, viscosity reduction of, 83, 626
Cellulose nitrate films, mfr. of, 130
Cellulose nitrate lacquers, new book on, 692
Cellulose nitrate powder, removal of diphenylamine from, 82
Cellulose nitrate solutions, viscosity of, 508, 568
Cellulose nitrate solvents, constants of, 142
Celiulose palmitate, 322
Cellulose plastics, physical properties of, 431, 494
Cellulose solutions, producing by refrigeration, 262
Cellulose stearate, 322
Cellulose Thiourethanes, mfr. of, 678
—, plastics from, 682
Cellulose-thionthiol-carbon-hydroxy-paraffin-monocarboxylic acids, 24
Cellulose xanthacetic acid, mfr. of, 140
Cellulose xanthates, 508
Cellulose xanthimides, mfr. of, 678
Cel-O-Glass, ultra-violet light permeability of, 588
Celoid (T. M.), 35
Celoron, properties of, 325
Chandelier, molded, 457
Chemical encyclopaedia (book), 391
Chemical engineering catalog (book), 692
Chemistry, literature of, guide to (books), 82
Chlorobenzoyl benzoic acid, glycerol condensed with, 564
Chromium salts, catalysts in cellulose acetate mfr., 129
Cigarette holder, 530
Cigar-lighter, molded, 400
Clocks, molded cases for, 37, 400
Coating compositions, 611
Coating compounds, resinoids, 323
Cold molded article, mfr. of, 688
Cold-molding composition, 202, 569
Collapsible tube caps, molded, 516
Color, in molded handles, 398
—, in plastics, 95
—, commercial value of, 457
— in smoking sets, 286
Combs, history of, 369
—, novel, 24
—, recent patents on, 408, 411
Compact, durez, 700
Containers, resinoid, 322
Contract, indusing breach of, 708
Cooking utensil handles, casein, 402
Cords, gears containing, 73
Corex, ultra-violet light permeability of, 588
Cresol, casein plasticized with, 444
—, cellulose acetate made with, 323
Cresol alcohol, resin from, 264
Cresol p-toluensulfonate, 490
Cresylic acids, resinoids from, 567
Cresyl p-toluenesulfonate, properties of, 612
—, see also Kp
Cumarone resins, utilization of, 386
Cyclohexanol, see also Anol
Cyclohexanol acetate, 490
Cyclohexanone, 490
Cyclohexenone, 490, 491
Cyclohexyl acetate, properties of, 612
Cyclohexyl adipate, 490, 612
Cyclohexyl phthalate, properties of, 612
Czechoslovakia, plastic trade in, 21

Delorit, elasticity of, 372
—, specific gravity of, 263
Dentistry, molded products in, 218
Desk set, bakelite, 700
Dextrin, plastic contg., 202
Dextrose, resinoids contg., 447
Diacetone alcohol, see also Di-Al
Di-Al (diacetone alcohol), 385
Dial, modified, 138
Dibenzyl ether, 491
Dibutyl phthalate, 491
Dibutyl mesotartrate, pyroxylin plasticizer, 263
Dibutyl ortho-phthalate, 504
Diethyl carbonate, properties of, 612
Diethyl diphenyl urea, 491, 504
Diethylene dioxide, see also dioxan
Diethyl phthalate, 491, 504
Di-iso-butyl-ortho-phthalate, 504
Dimethyl urea, cellulose ester plasticizer, 438
Dioxan (diethylene dioxide), 385
Dioxane (cyclohexenone), 490, 491, 508
Dioxy-diphenyl-dimethyl-methane, plastic manufactured from, 429
Diphenic acid, glycerol condensed with, 564
Diphenylamine, removal from smokeless powder, 82, 142, 262
Diphenyl diethyl urea, 491
Diphenyl guanidine, shellac hardened with, 686
Dishes, molded, 201
Dolomite, plastic contg., 441
Door knobs, molded, 646
Drill sterilizer, molded, 218
"Drums to carloads,", 638
Drum, pyroxylin in, 400
Durez, demand for, 258
—, novelties molded from, 700
—, plant, description of, 638
—, story of, 638
Dyestuffs, resinoids manufactured from, 82

E-13, solvent, 489
East Indies, Dutch-, plastic trade of, 440
East Lynn, fire at, 614

Editorial, "Expectations in the Plastics Industries", 22
Egypt, pyroxylin products in, 35
Elaol, see palatinol C
Elaol, 491
Electrical insulation in Germany, 15
Electric-iron plug, cooled, 456
Electric light socket, molded shell on, 42
Electric plug, multiple, for table use, 462
Elo products, 229
Embargo, on laminated products, 198
Enduraware, 203
England, new plastic products in, 582
Erganol (benzyl ether), 385, 491
Ergol, see also benzyl benzoate
Ergol, 491
Erinoid, in England, 231
—, water absorption of, 12
Escutcheon plate, molded, new type of, 220
Esthonia, plastics trade of, 440
Ethyl acetanilid, 49, 489, 491, 612
Ethyl adipate, properties of, 612
Ethyl butyl carbonate, 490, 491
—, properties of, 612
Ethyl cellulose, acetating, 508
—, composition contg., 688
—, plastic contg., 262
Ethyl cellulose acetate, 508
Ethyl formate, 489
Ethyl glycol, 491
Ethyl glycol acetate, 491, 612
Ethylene glycol mono methyl ether, plasticizer, 509
Ethyl glycol phthalate, 491, 504, 612
Ethyl mandelate, pyroxylin plasticizer, 446
Ethyl phthalate, properties of, 612
Ethyl-m-toluene sulfonamide, see santicizer, 8
Ethyl-p-toluene sulfonamide, see santicizer, 8
Ethyl-p-toluene sulfonate, see also Aep
Ethyl paratoluenesulfonate, 490, 491, 612
Export, foreign markets, 525

Fabrics, beading, aminoplastics for, 510
—, plastic containing, 155
—, resin-impregnated, 628
Fatty acids, mono-halogen, cellulose compounds made with, 24
Fibre products, phenol impregnated, 38
Fibrous material, treating prior to use as filler in plastics, 386
Fibrous molding powder, 509
Films, cinematographic-cementing, 568
Fillers, function in plastics, 10
Fire, at Preble Box Toe Co., 614, 681
Flex-O-Glass, ultraviolet light permeability of, 588
Floor filler, pyroxylin in, 626
Flowers, pyroxylin plastic, 517
Flying machine, celluloid wings on, 324
Foreign markets for plastics, 525
Formaldehyde, leather hardened with, 253
Formic acid, cellulose esterified with, 386
Fountain, molded plunger on, 702
Frauds, advertising, 647, 708
Freight rates, increase of, 379
Fumaric acid, glycerol condensed with, 564
Furane derivatives, mfr. of, 502
Furfural, casein hardened with, 80
—casein solids contg., 634
Furfural resin, mfr. of, 502
Furfuralcohol, resins from, 502, 558

Galalith, 190
—, water absorption of, 12
Galoid, 190
—, water absorption of, 12
Gasolene gauge, molded, 455
Gears, composite, patent history of, 249, 312, 373, 433
—, cords in, 78
—, fiber, history of, 379
—, —, see also gears, composite,
—, laminated, in industry, 342
—, Metallic hubs, 72
—, molded, 72
—, silent, story of, 50
Gear shift balls, molded, 278
Gelatine, plastics of, analysis of, 24
General Plastics Inc., plant, 638
Germany, button trade of, 591
—, celluloid trade in, 23
—, electrical insulation in, 15
—, modern plastic materials of, 15
—, pyroxylin products in, 193
Glass, cementing, resinoid for, 568
—, itaconic esters for making, 78
—, safety, new installation for large scale mfr. of, 160
—, synthetic unbreakable, new, 591
—, triplex, Kinon, 25
—, ultra-violet light permeability of, 588
Glass-like resin, from glycerol and phthalic anhydride, 438
Glorit, 21
Glorith, 189
Globe, molded, 337
Glycerol, glass-clear resin from, 438
Glycerol, phenol and, resin from, 382
Glycerol-benzoic acid resins, manufacture of, 564
Glycerol-benzoyl-benzoic acid resins, mfr. of, 564
Glycerol-chloro-benzoyl-benzoic acid resins, manufacture of, 564
Glycerol-diphenic acid resins, manufacture of, 564
Glycerol-fumaric acid resin, manufacture of, 564
Glycerol-maleic acid resins, mfr. of, 564
Glycerol malo-malic acid resins, mfr. of, 564
Glycerol-methyl-benzoylbenzoic acid resins, mfr. of, 564
Glycerol-naphthalic acids resins, mfr. of 564
Glycerol-phthalic acid resins, 508, 564
—, stencil sheet from, 81
Glycerol phthalic anhydride resin, mfr. of, 562
Glycerol resin, colorless, 438
Glycerol-shellac resin, laminated product containing, 567
Glycerol-succinic acid resins, mfr. of, 564
Glycerol-tartaric acid resins, mfr. of, 564
Glycol ethers, 491
Glyptal resins, 508
—, glycerol resin containing, 25
—, rapid-curing, 25
Guanidine, aminoplastic, made with, 203
—, shellac hardened with, 686
Guanidine carbonate, aminoplastic made with, 203
"Guide to the Literature of Chemistry", 82
Gummi-freie Isolierstoffe (book review), 387
Gypsum, plastic contg., 202

Handles, electric machinery, colored, 398
—, for luggage, molded, 407
—, molded, for sad-irons, 216
—, resinoid, on electric razors, 642
Harmonicas, molded, 318
Heat test, Martens, 492
—, official, 680
—, vicat, 507
Hekolith (T. M.), 35
Herculite, new strong plastic, 224
Hexalin acetate, 490, 491
Hexahydrocresoles, 490
Horn, artificial, leather for making, 253
Hot-plate tray, molded, 520
Home, molded articles in, 458
Hydrocolloid composition, plastic, 568
Hydroxylohexanol, see Hydrohexalin
Hydrohexalin (hydrocyclohexanol), 385
Hydroquinone, casein plasticized with, 444

Infuselax, molding powder, 232
Ingersoll pens, molded, 213
India, pyroxylin products in, 591
Inserts, metal, how to design, 97
—, metallic, accurate setting of, 280
—, in radio sockets, 112
Insulating material, breaking tests on, 69
—, change in duty on, 592
—, electric tests on, 69
—, in Germany, 69
—, rubber-free, molded (book), 387
—, from tar wastes, 386
—, testing at high frequencies, 322
—, of wood and ozokerite, 322
Iron, sad-, molded handles for, 216
Itaconic esters, glass-like products from, 78
—, polymerizing, 78
Italy, bakelite in, 71
—, phenoplastics in, 71

Japan, plastic industries of, 24, 35, 577
—, soya beans in, 468
—, soya bean casein in, 591
Japanese, contributions to the art of plastics, 609
Jewel box, durez, 700
Juvelith, 153
—, specific gravity of, 263
—, elasticity of, 372

Kamra, 158
Kamphol, (oxanilide), 385
Keratin plastics, mfr. or, 445
Ketone condensation products, plasticizers, 509
Kinon, triplex glass, 25
Kp (cresyl p-toluene sulfonate), 385
Kp (cresol p-toluene sulfonate), 490

Laboratory supplies, molded, 554
Lacquer solvents, explosive properties of vapors of, 142
Lactic acid cellulose treated with, 323
Lak (benzene ⊥ amy acetate), 385
Laminated products, embargo on, 198
—, from glycerol-phenol resins, 382
—, importation of, 84
—, mfrs. of, 386, 560
Lamination, complaint to Tariff Commission, 84
Lamps, molded housing for, 275
Latvia, plastic trade of, 440
Leather, celluloid coated with, 688
Leather scrap, artificial horn from, 253
Light, ultra-violet, transmission through various new plastics, 588
Lignite, IT-M, 586
Lithuania, plastic trade of, 440
Loudspeaker, molded, 462, 626
—, pyroxylin, 648
Lorgnette, in England, 649
Lucite, 553
—, display of, 703
Luggage, colored molded handles for, 407

Machinery, pyroxylin parts in, 396
Magnesia, plastics mfr. from, 390
Magnesium oxide, see also Magnesia
Magnesium oxychloride, plastics from, 390
Magnifying glasses, pyroxylin frame, 352
Mannol, 491
Maleic acid, glycerol condensed with, 564
Malic acid, glycerol condensed with, 564
Malo-malic acid, glycerol condensed with, 564
Manol, 491
Market research by "Nema", 103
Martens heat test, 492
Medallions molded, 99
Metal, sheets of, pyroxylin sheets combined with, 134
Metals, plasticity of, 252
—, viscosity of cellulose nitrate reduced with, 626
Metal foil, pyroxylin sheets backed with, 134
Metal inserts, design of, 97
Metal salts, incorporating into viscose, 192
Methyl acetanilide, properties of, 612
Methyl acetate, 489, 504
Methyl adipate, properties of, 612
Methylanol (methylcyclohexanol), 385
Methylanon, 490, 504
Methyl benzoyl benzoic acid, glycerol condensed with, 564
Methylcyclohexanol, see also Methylanol
Methylcyclohexanone, 490
Methylcyclohexyl acetate, properties of, 612
Methylcyclohexyl adipate, properties of, 612
Methyl cyclohexyl phthalate, properties of, 612
Methyl formate, 489, 504
Methyl glycol, 491, 504
Methyl glycol acetate, 504, 612
Methyl glycol phthalate, 504, 505, 612
Methyl hexalin acetate, 504
beta-Methyl phenoxy ethyl phthalate, cellulose ester plasticizer, 689
beta-Methyl phenoxy ethyl laurate, cellulose ester plasticizer, 689
Methyl phthalate, properties of, 612
Methyl p-toluene sulfonate, properties of, 612
Mica, composite molded products containing history of, 549, 620, 672
—, micanite in place of, 648
—, pasted, mfr. of, 672
Micanite, replacing Indian mica, 648
Mica plate, molded, 24
Mica rings, manufacture of, 562
Mica sheets, building up, 550
—, machines for making, (list of patents), 685
Micarta, propeller of, 396
Misbranding, 708
Molded forms, freight rate increase on, 379
Molded products, 492
—, at British Industries Fair, 217
—, buyer of, knowledge required by, 335
—, car coupler container, 344
—, in coal mines, 275
—, compressive strength of, testing, 561
—, dielectric strength of, testing, 624
—, flexibility, manufacture of, 564
—, of furfural casein and, 80
—, German testing methods, 27
—, highly colored, 311
—, high strength, severe test of, 344
—, laminated, mfr. of, 688
—, ordering, information essential to, 335
—, promotion by "Nema", 102
—, safety lamps contg., 275
—, sulfur in, 688
—, table-ware of, 201
—, tensile strength of testing, 560
—, testing, 157, 709
—, transverse strength of, testing, 624
—, who buys, 395
Molders Association, mid-west meeting, 708
Molding, the age of, 41, 99
—, cold, in colors, 100
—, new fields for, 514
Molding industry, statistics on, 702
Molding composition, shellac and rubber in, 262
—, XM-199, 155
Molding powder, Beetle, 200
—, cellulose acetate, 635
—, fibrous, 509
Mollit I, 491, 504
Movies, talking, plastics in, 528

Name, generic, for molded products, 228, 649, 700
Naphthalic acid, glycerol condensed with, 564
a-Napthol, casein plasticized with 444
b-Napthol, casein plasticized with, 444
Naphthylamine, shellac hardened with, 690
Nema, meeting of, 226
Nema name contest, 649
Neo-Camphrosal (p-toluenesulfamide), 385, 504
Neolith, 189
—, water absorption of, 12
Neoresit, 193
Netherlands, plastic trade of, 314
Norway, plastic trade of, 440

Oils, rancidity of in plastics, preventing, 688
—, vegetable, resinoids from, 446
Oil gauge, resinoid sheets in, 462
Ophthalmic mounting, 24
Ornithoper celluloid wings on, 324
Oxanilide, see also Kamphol
—, 490, 612
Oyogalith, 190
—, water absorption of, 12
Ozokerite, wood and, insulation containing, 322

Pa (Ethyl glycol phthalate), 504
Packing, new, 531
Palatinol, 491
Palatinol A, 504
Palatinol C (dibutyl ortho phthalate), 504
Palatinol JC, (di-iso-butyl-ortho phthalate), 504
Palmitic acid, starch ester of, 262
Panels, veneered, mfr. of, 138
Paper, plastic properties of, 432
—, pyroxylin coated, sound record of, 626
Paraformaldehyde, plastic from, 206
Pearl effects, obtaining, 446
Pearl essence, pyroxylin products colored with, 74
Pens, phenol resinoids for making, 213
Pent-acetate, (amyl acetate), 385
Pentaerythrite, resins from, 503
Pentasol (amyl alcohol, c. p.), 385
Peralcol, (cyclohexanol ⊥ ethyl alcohol), 385
Perchlorates in cellulose acetate, mfr. of, 24
Persprit (iso-propyl alcohol), 385
Phenol, casein plasticized with, 444
—, cellulose acetate made with, 323
—, cheaper, from benzene halenoids, 142
—, glycerol and, resin from, 382
—, proteids and, plastics from, 611
—, resin containing, 82
—, resin from palaldehyde sulfuryl chloride and, 265
—, rubber condensed with, 135
—, tung oil, oil condensed with, 323
Phenol-butyl aldehyde resin, manufacture of, 566
Phenol resins, see phenoplastics
Phenoplastics, continuous—process for making, 552, 618
—, compilation of literature and patents of, 202
—, digest of patents on, 262
—, in Italy, 71
—, malleable, mfr. of, 386
—, modern, 699
—, molding, 510
—, pens of, 213
—, specific gravity of, 263

—, tung-oil in, 689
Phenol-urea resins, 564
Beta-phenoxy ethyl phthalate, cellulose ester plasticizer, 689
Phonograph records, see sound records
Phthalic acid, glycerol condensed with, 564
—, pentaerythrite resin from, 503
—, resin containing, 25
Phthalic anhydride, glass-clear resin from, 438
Pipe, bakelite, 701
Plass, new synthetic glass, 591
Plasticizers, properties of, 489
—, trade-names of, 385
Plastics, advertising, 404
—, colored, 100
—, Czechoslovakian, 21
—, die-casting, 85
—, effect of mechanical working on, 131
—, elasticity of, 371
—, electrical resistance of, 16
—, export possibilities of, 525
—, effect on radio style changes on, 554
—, filler for, specially treated fibrous material as, 386
—, gain or loss in 1928?, 702
—, from gelatine, analysis of, 24
—, German war-substitutes for, 15
—, heat tests for, 680
—, how you can use, 697
—, hygroscopicity of, 11
—, importance of wood-flour in, 28
—, Japanese contributions to the art of, 609
—, mechanical properties of, 189, 252, 371
—, optical properties of, 131
—, past and future, 674
—, popularizing, 404
—, porous, molding, 441
—, industry, rise of first, 669
—, trade statistics, 522
—, ultra-violet light permeability of, 588
—, viscose type products as, 192
—, water absorption of, 680
—, wood flour in, importance of, 28
Plastics, world trade in, 153
—, —, Austria, 378
—, —, Dutch East Indies, 440
—, —, Esthonia, 440
—, —, Latvia, 440
—, —, Lithuania, 440
—, —, Netherlands, 314
—, —, Norway, 440
Plastic tile, a new industry, 575
P M (methyl glycol phthalate), 505
Poker chips, Bakelite, 701
Poilopas, elasticity of, 372
Powder, smokeless, diphenylamine removed from, 82, 142, 262
Powder jar, molded, 46
Press, for battery boxes, 212
—, extrusion, use of in casein solid mfr., 132, 133
—, Grigoleit, 251
—, hydraulic, 24
—, hydraulic, large, 251
—, molding, 25
—, new mechanical molding, 133
Printing on pyroxylin, 260
Products, glass-like from itaconic esters, 78
Propeller, molded micarta, 396
Iso-propyl alcohol, see also persprit
Proteids, soya bean, plastics from, 610
Proteins, cellulose esters and, plastics contg., 322
Prystal (T. M.), 35
Pulp, thermo-plastic, preparation of, 568
Pump, acid-resisting, resinoids in, 637
Pyralin, window display of, 49
Pyrocatechin, casein plasticized with, 444
Pyrohorn (T. M.), 35
Pyromucic acid, resin from, 502
Pyroxylin, casein combined with, 322
—, exports, 468, 591
—, Japanese Trade in, 35
—, loud speaker of, 648
—, low viscosity, lacquer from, 262
—, manufacture from sulfite tissue, 322
—, plasticizer, dibutyl mesotartrate as, 263
—, rubber combined with, 884
—, sound record of paper coated with, 626
—, trade-names of plasticizers of, 385
Pyroxylin films, rubber molded in forms covered with, 442, 443
Pyroxylin industry, statistics, 522
Pyroxylin plastics, in Austria, 378
—, brittle, rejuvenating, 191
—, drum made of, 400
—, in Egypt, 35
—, flowers made of, 517
—, German product of, 193
—, in India, 591
—, printing on, 260, 382
—, racidity of oils in, preventing, 688
—, machinery contg., 396
—, metal foil in, 148
—, modern art in, 695
—, physical properties of, 432, 494
—, surface decoration of, 74
—, see also celluloid
Pyroxylin plastic scrap, molding, 508
Pyroxylin plastic tiles, as card substitutes, 277
Pyroxylin sheets, airplane windows of, 410
—, signs of daylight, 336
—, metal combined with, 134
—, tubes rolled from, 258

Quartz, ultra-violet light permeability of, 588
Quinone, solvent for cellulose compounds, 145

Radio apparatus, style changes, effect on plastic industries, 564
Radio tube, new base for, 466
—, new type, 276
Radio tube bases, molding, 164
Radio tube sockets, molding, 164
Radio show—1928, 554
—, Bakelite display at, 568
Rattle, celluloid, mfr. of, 24, 202
Razors, electric, resinoid handles on, 642
—, molded handle of, 96
Rebates, secret, 709
Redmanol, specific gravity of, 263
Research, Bakelite Corp., 81
Resin, artificial, see resinoids
Resin investigations, Japanese, 609
Resinoids, abrasive, wheels containing, 346
—, acid-resisting pump made of, 637
—, after-curing, 708
—, aluminum castings coated with, 569
—, applications of, 322
—, bottle tops of, 396
—, British research in, 471
—, cementing glass joined with, 568
—, colloid chemical aspects of, 318
—, continuous process of making, 552
—, dyestuffs for preparing, 82
—, flexible, manufacture of, 564
—, generic name for, 228
—, hardening, 531
—, infusible fusing, 309
—, insoluble, dissolving, 309, 447
—, light colored, mfr. of, 264
—, like natural, synthesis of, 264
—, mfr. of, 446
—, modern, 699
—, mechanical properties of, 318, 371
—, multi-colored blocks of, 500, 565
—, new British, 703
—, paratoluenesulfonamide in, 142
—, phenolic, chemical constitution of, 386
—, phenoplastics, hardening, 323
—, plastics from vegetable oils and, 446
—, recent progress in, 618
—, researches, British, 1926-7, 391
—, review of, 322
—, sand-paper made with, 258
—, specific gravity of, 263
—, spray-drying, 553
—, stencil sheets containing, 81
—, synthetic, purifying, 508
—, from tar oil direct, 383
—, transparent, oil-gauge made of, 462
—, veneer of, 568
—, see also phenoplastics
Resinoid industry, American development, 524
Resorcinol, casein plasticized with, 444
Rhodoid, physical properties of, 431, 498
Rodol No. 333, (methyl alcohol + methyl acetate), 385
Rolmonica, molded, 348
Rosin, sulfur-starch plastic contg., 388
Rubber, cellulose ester plastic contg., 508
—, hard, physical properties of, 498
—, molding composition contg., 135
—, molding in pyroxylin covered forms, 442
—, phenol condensed with, 135
—, plastic, sound records of, 630
—, pyroxylin combined with, 884
—, shellac and, composition contg., 262
—, shellac-like products from, 452, 569, 612, 618
Rubber-like products, mfr. of synthetic, 618
Rubber plastics, research activities in, 442
Rubber rings, molded sockets having, 138

Safety glass, mfr. of, new plant for, 160
Safety lamps, molded housing for, 275
Salicylic acid, casein plasticized with, 444
Sandpaper, resinoids for, 258
Santicizer, p-toluene sulfanilide), 473
Santicizer 3 (ethyl-paratoluenesulfonamide), 473
Santicizer 8 (ethyl-meta-toluenesulfonamide), 473
Shellac, hardening, 686
—, improving, 686
—, market conditions, 715
—, rubber and, composition contg., 262
—, substitute for, rubber for making, 613
—, use in molded products, 698
Shellac-like products, from rubber, 452, 569
Shoes, pyroxylin foot corrector in, 520
Sicalite, water absorption of, 12
Sicoid, physical properties of, 431, 498
Signs, casein products in, 40
—, daylight, pyroxylin sheets for, 336
Silk, as a thermoplastic, 254
Skull, human, molded of Bakelite, 696
Smoker's articles, Durez, 701
Smoker's sets, molded, color appeal of, 286
Snap fasteners, escutcheon plates fastened with, 220
Soaps, insoluble, casein solid contg., 634
Socket, electric light, molded, 42
—, molded, 282
—, radio, reinforced, molded, 112
—, soft rubber ring around, 138
—, for table use, 286
Soda-fountain parts, molded, 402
Sodium silicate, porous plastic contg., 441
Solith, 153
Solvents, properties of, 480
Solvent aep (ethyl p-toluene sulfonate), 385
Solvent E 13, 489
Solvent Kp (cresyl p-toluene sulfonate), 385
Sound records, British development of, 464
—, of casein solids, 444
—, flexible, pyroxylin, 626
—, knurled rim on, 568
—, laminated, manufacture of, 20
—, molding under water, 441
—, of paper and phenol resinoids, 446
—, pyroxylin coated paper, 626
—, rubber in, 630
—, sulfur-resins in, 626
Souveloware, 217
Soya beans, in Japan, 468
—, plastics from, 610
Soya bean casein, in Japan, 591
Spectacle frames, 82
Spools, resinoid, mfr. of, 138
Starch, sulfur and, plastic contg., 388
Starch esters, composition containing, 323
—, of fatty acids, plastics from, 262
Starch palmitate, mfr. of, 262
Starch-sulphur, plastic, 568
Statuettes, political, molded, 466
Stearine pitch, cold-molding composition containing, 569
Stencil sheets, resinoids in, 81
Style, estimating success of, 640
—, reconciling simplification with, 95
Submarines, molded, 39
Succinic acid, glycerol condensed with, 564
Sulfite tissue, pyroxylin manufacture from, 322
Sulfuric acid, effect on cellulose acetation, 130
Sulfur, plastics contg., 688, 689
—, starch and, plastic containing, 388, 568
Sulfur naphthalene resin, sound record of, 626
Sulfur resins, sound record of, 626
Sulfuryl chloride, resin from, 264
Surgery, Bakelite in, 696
Survey of nitrocellulose lacquers (Book), 692
Switch plates, colored, 472
—, pearl-effects on, 44
—, pyrolin products, 44

Tableware, Beetle, (molded), 201
Tamasol J, (butyl acetate), 490, 505
Tariff commission, laminators complain before, 84
Tariff decision, appeal from, 553
Tar oil, resinoids made direct from, 382
Tartaric acid, glycerol condensed with, 564
Tar wastes, insulating materials from, 386
Television, plastic products, 566
Testing apparatus, 70
Tetrachloroethane, see also tetralina
Tetralina (terachloroethane), 385
Thiourea, resins from, 322
Thiourea-butyleneglycol condensate, 509
"The America" (airplane), molded products on, 460
Tile, molded, new industry in, 575
—, pyroxylin, as bridge cards, 277
Timing gears, molded, 51
Toilet goods, molded products, 46
Toilet sets, new designs in, 695
Toiletware, du Pont, 466
—, style, estimating popularity of, 640
Toluene sulfochloride, resinoid from, 264
P-Toluenesulfonamide, 504, 612
—, resinoids contg., 142
—, see also neocamphrosal
P-Toluene sulfanilide, see santicizer
Toluidine resins, mfr. of, 447
Tooth brush, dental floss in end of, 518
Tortoise-shell effects, obtaining, 446
Trade-mark rights, in advertising novelties, 584
Trade practice conference, 708
Trichloroacetic acid, rubber and phenol condensed with, 135
Tricresyl phosphate, 505, 612
"Trimfoot", 520
Triphenyl phosphate, 505, 612
Trolite, cellulose acetate product, 85, 431
Tubes, pyroxylin, from sheets, 258
Tung oil phenol, condensed with, 323
—, phenoplastic contg., 689

Ultra-violet light, see light, ultra-violet
Umbrellas, eyes for, 110
Umbrella window, 110
Upholstery panels, 93
Urea, acrolein condensed with, 194
—, casein plasticized with, 444
—, phenol resins, 564
—, plastics mfr. from, 204
—, resins from, 322
Ures-benzyl alcohol condensate, 509
Urea-butylene glycol condensate, 509
Urea-ethyl alcohol condensate, 509
Urea-formaldehyde condensation products, see aminoplastics
Urethane-glycerol condensate, 509
User, safeguarding the, by tests, 157

Variometers, moldings, 25
Veneer, resinoid, 568
Vicat heat test, 507
Vigorit, elasticity of, 372
Vinyl alcohol, rubber-like products from, 618
Viscose, cellulose compounds from, 24
—, cellulose xanthacetic acid mfr. from, 140
—, mfr. of by cold, 262
Vitaglass, ultra-violet light permeability of, 588
Vitreo-colloid, new British plastic, 582
—, properties of, 582
Vulcanized fiber, physical properties of, 450

Wall plates, colored, for electric work, 472
Water absorption, by casein solids, 11
Water marks, 709
Wine set, molded, 99
Wings, celluloid, ornithopter having, 324
"Window liquid" celluloid, 568
Wire screen, cel-o-glass reinforced with, 590
Wood, artificial, mfr. of, 142
—, early combs of, 369
—, ozokerite and, insulation of, 322
Wood flour, mfr. of, 28
Wood substitute, mfr. of, 142
Wood veneer, plastic panels coated with, 138

XM-100, fabric—base molding composition, 155

Zellon, physical properties of, 431
—, 498
Zinc chloride, catalyst in cellulose acetate mfr., 129

PLASTICS and MOLDED PRODUCTS

Volume IV, 1928
